COURSE SYLLABUS

CyberSAFE Certification Training Course (Self-Paced)

This self-study course includes the CyberSAFE eLearning, assessment, and credential. Regardless of your computer experience, this class will help you become more aware of technology-related risks and what you can do to protect yourself and your organization from them. This course will help you to understand both security and compliance needs and requirements, recognize and avoid phishing and other social engineering attempts, recognize and avoid viruses, ransomware, and other malware, and help ensure data security on computers, mobile devices, networks, the Internet, and in the cloud.

> Group classes (Live Online) and onsite training are available for this course. For more information, email onsite@graduateschool.edu or visit: https://sdfm.graduateschool.edu/courses/cybersafe-certification-training
