Executive Survival Skills Course

The course helps participants be better equipped to lead change through a deeper understanding of leadership and team building skills and practices. The curriculum covers topics such as leading in turbulent times, emotional intelligence and leadership roles, leadership presence, situational leadership, change dynamics and tools, team development and trust, and appreciative inquiry. This course will address the theoretical and practical leadership aspects essential for survival in today's changing environment. Examine how the leader's attitude, values, and beliefs influence organizational performance. Analyze your critical thinking/ decision-making processes and apply strategies to improve them. Learn to be resilient, overcome setbacks and avoid career derailment in the rapidly changing, high-pressure environment of executive leadership.

Group classes in Live Online and onsite training is available for this course. For more information, email onsite@graduateschool.edu or visit:
