PowerPoint Level I

This beginner-friendly PowerPoint course covers the core skills needed to create engaging and professional presentations.

- Build new presentations from templates and customize layouts, themes, and content structure
- Add and edit text, bullets, and numbered lists using Outline View and various formatting tools
- Insert and enhance photos, SmartArt, and shapes with effects, cropping, and alignment options
- Create and format tables, add connector lines, and import charts from Excel to display data
- Apply transitions, manage presenter notes, and use presentation tools for live or virtual delivery
- Save, print, and export presentations to PDF, with options tailored for professional use

PowerPoint Level II

- Create and manage Slide Master layouts to ensure consistent branding across entire presentations
- Design custom PowerPoint themes, including personalized color palettes, fonts, and reusable backgrounds
- Animate bullet points, charts, and objects using entrance, emphasis, and exit effects, and explore the Morph transition
- Integrate video, hyperlinks, and dynamic charts and tables imported from Excel for interactive presentations

- Customize presentation workflows with hidden slides, custom shows, sections, and the Quick Access Toolbar
- Collaborate and finalize projects with built-in commenting tools, PDF export options, and optimized printing settings
